Living or Biological, Natural Earth, or Human-Made

One of these is living/biological and one is human-made. Which is which? How can you tell?

One of these is living/biological and the other is natural Earth. Which is which? How can you tell?

One of these is natural Earth and the other is human-made. Which is which? How can you tell?

Do you think each of these is living/biological, natural Earth, or human-made? Why?

Pinwheel

1. Color the pinwheel below, front and back, if desired.
2. Cut out the large square and cut in on each dotted line. Do not cut past the end of the dotted line.
3. Use a straight pin with a ball head or a push pin to poke holes in each of the 5 black dots.
4. Bring every outside black dot/hole into the center black dot/hole and thread your pin through all 5 holes, then stick the pin into the side of a new pencil's eraser, allowing the pinwheel to spin freely!
